ALPR Stats Definitions

ALPR Hit - when a read license plate matched to a license entered into a Hot List or Hot Plate.

ALPR Detection - the capture of digital images or license plates and vehicles with associated metadata (date, time, GPS coordinates with vehicle image capture).

Hot List/Hot Plate - License plate numbers of stolen vehicles, wanted subjects, missing persons, AMBER alerts, suspended, revoked, or expired registration, or any other criteria. Hot list information can come from a variety of sources including but not limited to: the National Crime Information Center (NCIC), Law Enforcement Agencies Data System (LEADS), and the Illinois Secretary of State (SOS).
